ENIGMA TEETH SETTING AND WAXING CLASSES

American Dental Supply/Leach & Dillon is now offering **TWO** stand-alone denture courses by Ruth Bourke B.Sc. (Hons LBIST). These courses are designed to be taken either as an individual one-day class or a comprehensive two-day class.

**Please note - Waxing is not part of the first class, it is covered in the second day.*

- DATE:** March 26th & 27th, 2010 (Friday and Saturday)
- LOCATION:** Zahn Education Center - Wallingford, CT
- COURSE FEE:** \$425 for one class (either Teeth Setting or Waxing) or \$800 for both classes. Make check payable to American Dental Supply, Inc. Mastercard and Visa accepted. The fee must be paid no later than one week before the course.
- CONTACT:** To register call Erica at American Dental Supply at 610-252-1464 ext. 22 or Toll Free at 1-800-558-5925 ext. 22.

~ ENIGMA TEETH SETTING CLASS - 8 CE Credits ~

This “hands-on” class is intended as a foundational class for technicians new to setting teeth. Participants will set a Class 1 - complete upper and lower denture in balanced occlusion using Enigma teeth. Linqualized occlusion will also be demonstrated. All materials and models will be provided, however, the participant is responsible for safety clothing, and personal laboratory tools.

Educational Objectives: By the end of the class, participants should be able to:

- Have an understanding of complete denture occlusion
- Be able to access articulated models & set teeth to a balanced occlusion
- Choose and set teeth to look natural
- Use an Alma Gauge to fabricate a dimensionally accurate wax rim

~ ENIGMA WAXING CLASS - 8 CE Credits ~

This “hands-on” class will focus on anatomical waxing techniques for natural looking dentures. Participants will wax an upper denture with Enigma teeth. Ruth will also demonstrate the application of Enigma Color Tones. All materials will be provided. Some previous waxing experience is recommended for this class.

Educational Objectives: By the end of the class, participants should be able to:

- Have an understanding of oral anatomy and gingival architecture
- Choose and set teeth to look natural
- Be able to wax gums utilizing the “s” curve technique, sponge stippling, and wax additive techniques
- Apply gingival color tones to match a Caucasian gum shade
